

## Assignment 6

1-Evaluate the U.S. water budget, and identify critical aspects of present and future freshwater supplies.

2-Compare MD and CA in terms of main sources of water supply.

- Identify the main sources of water supply for both MD and CA, respectively.
- Are there any desalination plants in MD or CA?
- What major dams are present in MD and CA, and what are their respective capacities?

|            | Main Source of Water Supply            | Desalination Plant | Dam    |
|------------|----------------------------------------|--------------------|--------|
| Maryland   | Groundwater/Surface Water/Desalination | Yes/No             | Yes/No |
| California | Groundwater/Surface Water/Desalination | Yes/No             | Yes/No |
